4/30/2021

To Our Residents, Family Members and Staff

Your peace of mind is important to us and we appreciate all the well wishes we have received during this difficult time. The individuals who live under our roof are loved by you and all of us.

We continue to test staff on a regular basis. Another round of testing was completed and there were no positive results. This is wonderful news of course. There have not been any new positive covid -19 cases amongst staff or residents in 2021. As of today, the residents are 100 % vaccinated and between 80-90 % of the staff are fully vaccinated.

We continue to have communal dining and small group activities. There are still safety provisions in place - social distancing, masks and limiting the total number of residents in a group. The number of families and friends requesting indoor and outdoor visitations has been great – it brings so much happiness to the residents. Please call me for more information and to schedule.

If you have any questions regarding quarantine rules and / or visitation practices don't hesitate to phone. We are kindly asking everyone to make appointments at least 2 days in advance and to follow visitation protocols when here.

Abrams Residence continues best practices in prevention through mandatory screening of staff and residents; immediate proactive testing for persons with any symptoms; mandatory use of personal protective equipment (PPE) and many other measures.

If there is anything else we can do or you have any questions at all please do not hesitate to call me at 609-883-5391 ext. 384. After normal operating hours, use extension 387 if you need to talk with someone. These letters as well as other community information will be posted on the Greenwood House website (www.greenwoodhouse.org).

Sincerely,

Richard Goldstein
