

April 21, 2020

Dear Greenwood House,

There are no words to say thank you for your amazing staff and all you do for your patients. This is a truly terrible time for all you guys from custodial workers, therapist, aides, nurses, receptionist and administrative personnel. Your facility has done an amazing job and show total dedication to your patients. I know this because me and my dad have seen it first hand and have only been treated with amazing compassion from all your staff. I am the daughter of Jean Vadola who passed away on March 17 not from virus. But you all need to know that we know how hard and dedicated you all are. We cannot control this virus and you guys are doing an amazing job keeping your patients safe and your staff. Your staff is out there putting themselves at risk for our families. I know it must be hard for you all, but greenwood house is doing great. I believe sometimes people having to handle facilities like this need to hear a kind word and get support from us. My mom is not there but she is at peace, but my dad and I worry about you all.

Stay strong and be safe. If you guys need anything please call me.

You have my number.

Frank Vadola and Wendy Reading
